Handicap Terminal Improvements

Dear Sir/Madam,

As per our previous communications we have been collating all feedback received from clubs and golfers regarding the new handicap terminals and will be uploading a much improved version of the current system during the course of this evening and early tomorrow morning.

We have removed the 'Open Round' function, made some terminology changes which are more familiar to our golfers, reduced the number of steps required to enter a score, increased the size of the various fonts and buttons and improved on the colours used on the terminal to ensure that it is easy for all golfers to see.

Clubs who choose to, will still be able to open rounds for their members using either the SA Round Registration software provided to them by us or on their existing POS system once the back office service providers have completed the necessary integration.

We are confident that the new look will be very well received by all persons that interact with the terminal and that it will greatly reduce the amount of frustration being experienced when trying to enter a score.

We appreciate and value your feedback and should you have any questions, queries or suggestions please feel free to contact us on either 086 000 1945 or alternatively email us at info@handicaps.co.za.

Kind regards,

Handicaps Network Africa
